

Laptop Donation, April 8, 2019

The IMF, via its resident representative office in Zimbabwe, donated 10 laptops to Mudzonga Primary School. This school was elected after a thorough screening process. The school got an internet connection from another charity in anticipation of receiving the laptops. The principal and teachers promised that they will use the new learning tool very effectively.

About the school

Mudzonga Primary School was established in 1922. The school has an enrollment of 515 with only 2 computers for an average class of 40 learners. The donation will enhance the acquisition of local computer skills and enlighten the community.
