

Russian Federation: Statistical Appendix

The Statistical Appendix for the Russian Federation was prepared by a staff team of the International Monetary Fund as background documentation for the periodic consultation with the member country. It is based on the information available at the time it was completed on September 27, 2006. The views expressed in this document are those of the staff team and do not necessarily reflect the views of the government of the Russian Federation or the Executive Board of the IMF.

The policy of publication of staff reports and other documents by the IMF allows for the deletion of market-sensitive information.

To assist the IMF in evaluating the publication policy, reader comments are invited and may be sent by e-mail to publicationpolicy@imf.org.

1/ The authorities' updated debt figures published in this format cover only 2003 onward. Figures for earlier years are derived from previous debt Tables and from Russia's international investment position as of end 2005.

2/ Loans from the Fund are recorded under Monetary Authorities.

3/ Including the central bank and the government (with respect to the indebtedness of the latter resulting from transactions with the IMF).

4/ Excluding equity capital and debt liabilities to direct investors.

5/ Since end-2003, indebtedness of non-financial enterprises includes the amount of common and preferred shares dividends declared but not yet repaid.
