Recommendation # 17:

The IMF to promote timely and cross-country standardized and comparable government finance data based on the accepted international standard, the *Government Finance Statistics Manual 2001*.

■ Timeliness

- Practical Guide on the Compilation of Quarterly General Government Statistics
- Objective: Assist national data providers in producing timely, reliable data suitable for use in real-world fiscal analysis
- Status: Guide is being drafted for completion in May 2011.

■ Cross-country standardization

- Working group including all involved IAG members is developing a program to coordinate the collection of government finance data in the GFSM 2001 framework.

1/ (GFSM 2001, in the companion material: "Selection of data sources..." on page 8) recommends statistics for general government operations within one quarter after the reference quarter and for central government within one month after the reference month.

The periodicity refers to data frequency of annually (A), quarterly (Q), and monthly (M).

Points for Discussion:

- Strategy for inter-agency data collection (early May 2011)
- Outreach strategy for more timely GFS data reporting (quarterly general government data)
- Finalize standard GFS Reporting Template (May/June 2011)
